

RK2EZ Dual Rack Kit for QMOD Modulators

1. Two brackets are included, heavier steel, long tab mounts to back of QMOD
2. Attach one bracket on the left side of the left QMOD, 2 screws in front, one at the back
3. Attach one bracket on the right side of the right QMOD, 2 screws in front, one at the back
4. Mount the 2 QMODs in the rack individually, side by side

This approach eliminates the need to remove the covers, each can be removed without disturbing the other.
